

With the ever changing rates charged for workers' compensation, employers deserve the opportunity to control their premium.

WE WORK FOR YOU

America's Premier Workers' Compensation Cost Control System. The experts at AcuComp® work on behalf of our Agency for YOU by:

- ▶ Auditing all open worker compensation claims until closure.
- ▶ Obtain and track reserve reductions through the experience rating process.
- ▶ Correct and verify experience modifiers.
- ▶ Data collection and management.
- ▶ Claim Consultation.
- ▶ Provide detailed claim reports.

The AcuComp® systematic approach has a documented result of reducing reserves by 30% and experience modifiers by 27 points over time. The achieved results permanently lower your experience modifier and ultimately, your workers' compensation insurance premium.

workers' compensation premium today!
