

Where Do We Sign?

That's the only question we get after telling employers how we can reduce their experience modifier by 27 points over time

America's Premier Workers' Compensation Cost Control System. AcuComp® has a documented history of lowering reserves by 30% and experience modifiers by 27 points over time.

AcuComp® uses their team of worker compensation experts and the proprietary software system to detect, correct, and obtain premium refunds.

Through our partnership, our clients can utilize the knowledge and experience of AcuComp® to audit all open workers' compensation claims, track the reserve reductions obtained, and the subsequent modification verifications all the way through the experience rating process.
